About Us

**Brilliance is evenly distributed,
but opportunity isn't.**

We exist to unlock human potential at scale

[READ MORE](#)

A note from our CEO

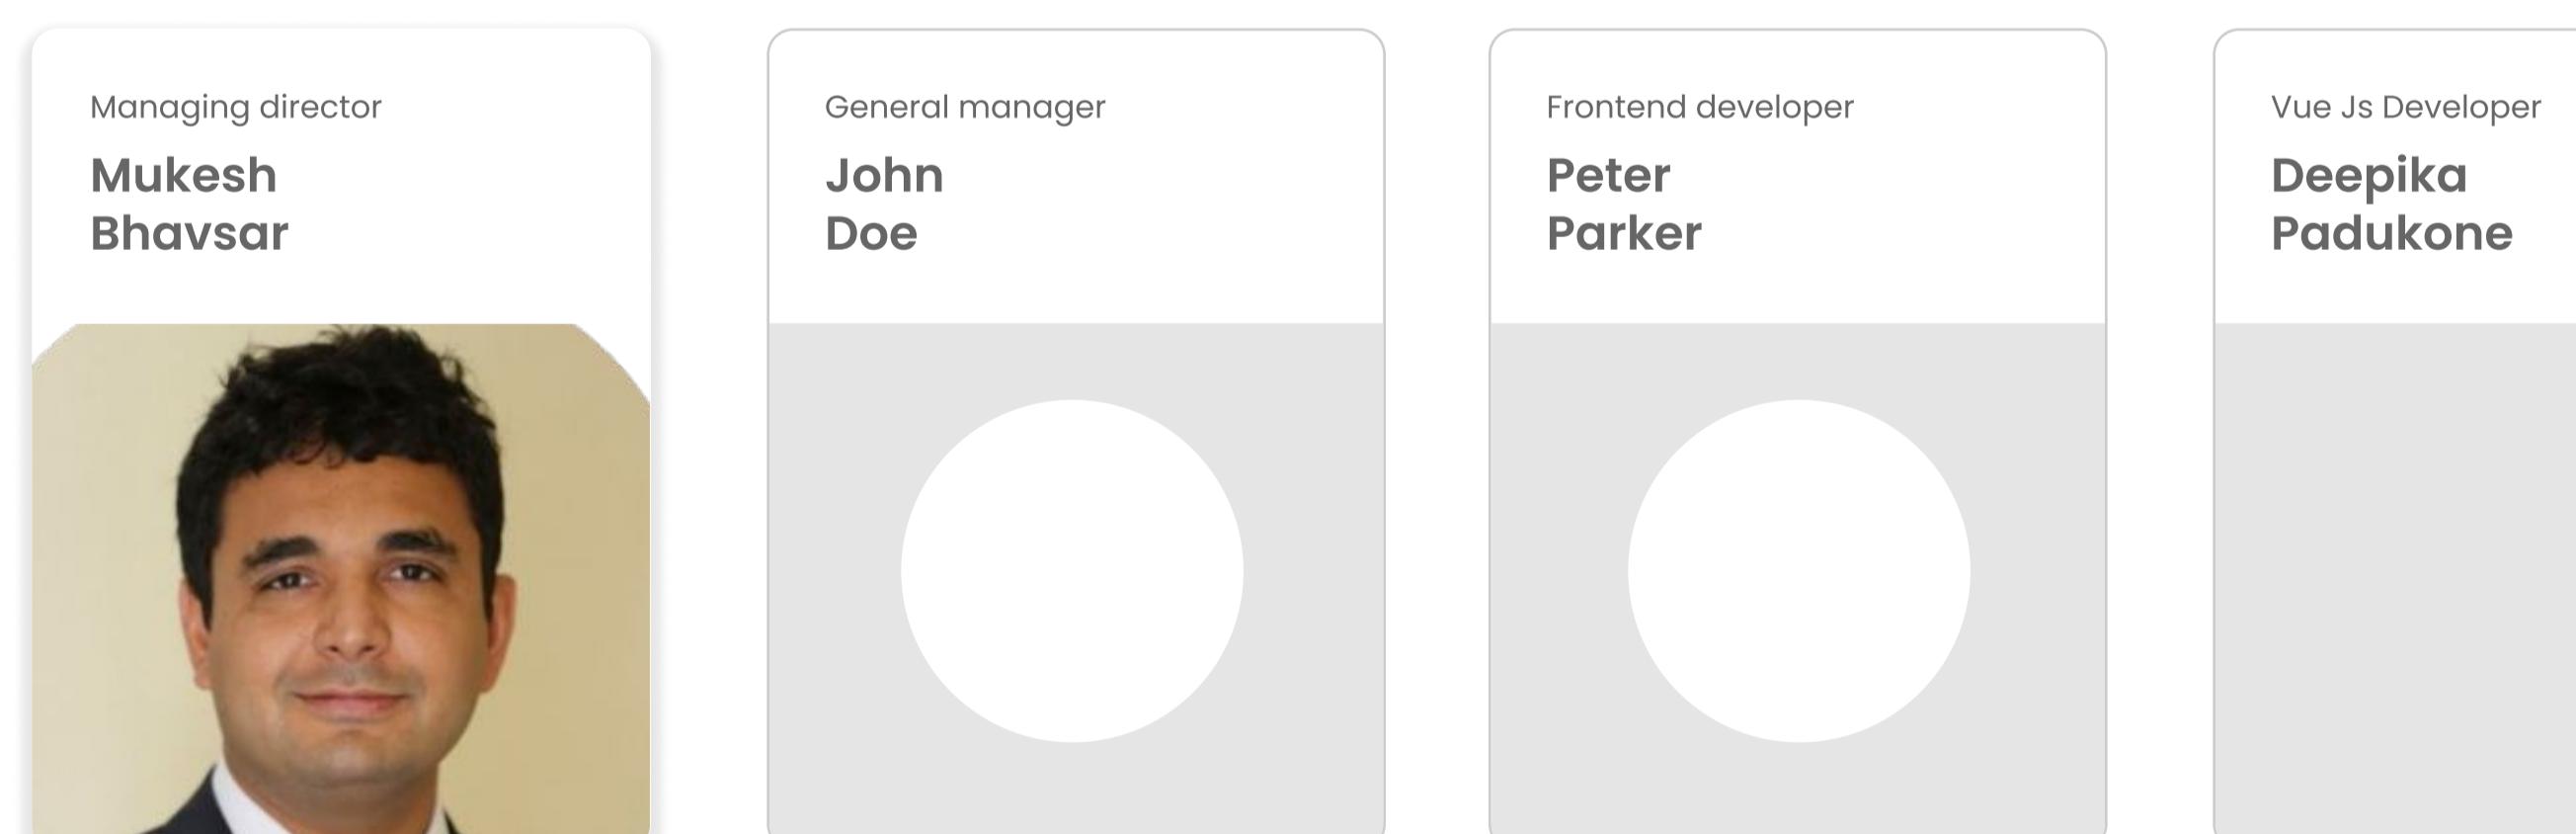

We exist to unlock human potential at scale.

Andela was founded on a simple truth: Brilliance is evenly distributed, but opportunity is not. There are talented individuals everywhere, but all too often their potential is limited by arbitrary factors like race, gender, nationality, and more tangibly, through challenges of operating globally.

We started Andela to bridge that gap. Beginning in Lagos, Nigeria, and now reaching across multiple continents, Andela has become the talent network trusted by hundreds of the world's top companies to help them seamlessly tap into global brilliance.

We've helped to accelerate the careers of thousands of individuals, and brought tens of thousands more into the global talent ecosystem. Now we have sharpened our focus on bringing the best talent to all aspects of the digital product suite, roles that add tremendous value to the evolving tech world.

Leadership

**We're
always
working
with**

Nobody does it alone.
Our partners are pretty cool.
